

HK FINANCIAL SERVICES

Firm Brochure

Form ADV Part 2A

03/30/2018

This firm brochure provides information about the qualifications and business practices of HK Financial Services, Inc. ("HKFS"). If you have any questions about the contents of this brochure, please contact us at 563-582-2855 or at compliance@hkfs.com. The information in this firm brochure has not been approved or verified by the United States Securities and Exchange Commission ("SEC") or by any state securities authority.

Additional information about HKFS is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for HKFS is 106237.

HKFS is a Registered Investment Adviser. However, registration with the SEC or any state securities authority does not imply a certain level of skill or training.

Summary of Material Changes

OVERVIEW

This “Summary of Material Changes” section addresses only material changes since our Brochure was last delivered to you or posted on the SEC’s website (see the cover page for the SEC website address). We provide updates regarding material changes, if any, at least annually. If we have no material changes, this Brochure will remain current. Please retain a copy until we provide you with an updated Brochure.

MATERIAL CHANGES

Item 4: Advisory Business

- We updated our regulatory assets under management reported in this item, which is \$3,022,224,241 as of December 31, 2017.
- Ivan Gruhl has replaced Ann McCorkindale as our firm’s Chief Investment Officer, effective January 19, 2018.
- We have also expanded this item by providing more details concerning the variety of Wealth Management Services available to our clients.

Item 5: Fees and Compensation

- Any investment company or other pooled investment vehicle - beyond employing such products in a client portfolio.
- We have expanded this item by providing more details concerning the types of fees and other compensation that HKFS receives as a firm through the various Wealth Management Services we offer, as well as the compensation that our Advisory Representative might receive by providing those solutions to our clients on our behalf.

Item 10: Other Financial Industry Activities and Affiliations

- We have updated the content provided in this item, by better aligning it with our Form ADV Part 1A and by providing more detail on the relationships that might result in potential conflicts with our clients.

Item 12: Brokerage Practices

- We have updated this item by providing more details concerning our strategic relationship with the custodian Schwab Advisor Services, including additional details on the benefits incurred because of this relationship and whether they might benefit our clients - either directly, indirectly, or not at all.

Item 15: Custody

- We have updated this item by providing disclosures to our clients concerning the custody imputed on HKFS because of certain authorizations or authority that we might maintain over client assets.

HOW TO OBTAIN ADDITIONAL COPIES OF OUR BROCHURE

Additional copies of our Brochure are available without charge from the abovementioned SEC website, or from our website, www.hkfs.com. You may also make a written request for our Brochure (and/or the Brochure Supplement(s) of our Advisory Representatives) to our corporate office by postal mail at 3390 Asbury Road, Dubuque, Iowa 52002, or by phone at 800-791-8994 (toll free) or 563-582-2855, or by email at info@hkfs.com.

Item 4: Advisory Business

Honkamp Krueger Financial Services, Inc., also doing business as HK Financial Services, Inc. and as HKFS (“HKFS”, “us”, “we”, “our”), is an independent investment adviser registered with the SEC under the Investment Advisers Act of 1940, as amended (“Advisers Act”).

HKFS was created in 1995 by the partners of Honkamp Krueger & Co., P.C., a top 100 CPA firm, to provide holistic financial services for their clients. HKFS collaborates with independent certified public accounting (“CPA”) firms and their professionals to provide “wealth management services” to their tax and accounting clients. HKFS coordinates investment, insurance and retirement planning opportunities with the tax planning advice of the independent CPA firms to meet the wealth management needs of their clients. HKFS provides personalized financial planning to individuals and companies. Our consultative approach involves investment management, retirement plan consulting, risk management planning, and tax-savings planning.

To that end, most of our clients are also the clients of the accountants/CPA firms with which we collaborate. Many of those accountants are themselves Advisory Representatives of HKFS. As a fiduciary under the Advisers Act and the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), we owe a duty to act solely in the best interests of our clients (“Clients”, “you”, “your”) and must disclose any conflicts that might limit or prevent us from meeting that duty.

OUR EXECUTIVE TEAM

Our principal owners include partners of Honkamp Krueger & Co., HKFS executive managers, and HKFS Advisory Representatives, none of whom individually own more than 25% of HKFS. Chris Kobes is the Chief Compliance Officer for our Registered Investment Adviser. The following is information about our executive team.

Gregory Burbach, CPA, CFP® | Director

The Managing Partner of Honkamp Krueger & Co., Greg earned a B.S. in Accounting from Western Kentucky University. He specializes in corporate, partnership and individual income tax preparation and consulting; estate planning; financial planning; financial statement preparation; general business consulting and management services; strategic planning and ownership and succession management. Greg is a Certified Public Accountant, a CERTIFIED FINANCIAL PLANNER™ practitioner, and a licensed insurance agent.

John Darrah, CFP®, CLU | Chairman of the Board & Chief Executive Officer

John earned a B.A. in Business Administration & Government from Monmouth College. He holds Series 7, 24, 51, 63, and 65 securities registrations and is a Registered Securities Representative with ProEquities, Inc. He is also a licensed insurance agent. John has earned the CERTIFIED FINANCIAL PLANNER™ certification, and holds the Chartered Life Underwriter designation and. He serves as Chair of the HKFS Management Committee along with serving on the HKFS Risk Management and Investment Advisory Committees. John joined the firm in 1996.

Louie Rosalez, CEPP | President

Louie earned a B.A. Degree in English and History from Buena Vista College. He manages all facets of the Insurance Division, Marketing, and New Business initiatives for HKFS. Louie is a licensed health and life insurance agent. He holds the Chartered Estate Planning Practitioner designation and is a multi-year qualifier for the premier Million-Dollar Round Table’s Top of the Table demonstrating exceptional professional knowledge, strict ethical conduct, and outstanding client service. He serves as Chair of the HKFS Risk Management Committee as well as serving on the HKFS Management Committee. Louie joined the firm in 1998.

Ivan Gruhl, CFA®, MBA | Executive Vice President, Chief Investment Officer

Ivan earned a B.A. Degree in Business Administration from Pacific Lutheran University, and a MBA from the Stern School of Business located in New York, NY. Ivan manages the RIA Investments and RIA Business Development teams, and he also assists financial professionals that service and support clients with fixed income needs. Ivan

holds the Chartered Financial Analyst designation. He serves as Chair of the HKFS Investment Advisory Committee, as well as serving on the HKFS Management Committee. Ivan joined the firm in 2011.

Brian Cose, CFP®, CLU, AEP | Executive Vice President, Chief Client Development Officer, Corporate Secretary

Brian earned a B.A. Degree in Political Science from the University of Northern Iowa. He manages our team of Financial Advisors and assists them in working with our HKFS CPA firm affiliates to design, implement wealth management, and transfer strategies for the clients of the affiliate CPA firms. Brian holds Series 4, 6, 7, 24, 63, and 65 Securities Licenses and is a Registered Representative with ProEquities, Inc. He is a licensed Health, Life, and Variable Insurance Agent. Brian has earned the CERTIFIED FINANCIAL PLANNER™ certification. He holds the Chartered Life Underwriter and Accredited Estate Planner designations. Brian joined the firm in 2000.

OUR FINANCIAL PROFESSIONALS

As previously mentioned, the accountants from the CPA firms with which we collaborate serve as the primary professional advisor for our clients, bringing together their tax advice with the wealth management services of HKFS. These accountants registered with HKFS as investment advisor representatives (“IAR”) and execute an IAR agreement with us prior to providing services on our behalf. As part of their IAR agreement, accountants receive a share of the asset-based advisory fee generated from the services provided to clients.

HKFS deploys salaried employees, referred to as financial planning consultants (“FPCs”), that work with the accountants to provide services specific to the wealth management needs of our clients. The FPCs that we recruit are generally individuals with financial services experience who prefer a consultative and collaborative approach to the delivery of wealth management services rather than a sales-driven or transactional approach. FPCs are assigned to one or more accountants/CPA firms, typically by geographical region, and are charged with developing the client relationships and delivering services in their given regions. We have FPCs located in Dubuque as well as in several other branch locations throughout the Midwest, Northern Plains, and the Southeast. HKFS continues to add resources in the areas of technology, portfolio reviews, proposals, and client onboarding to help support the accountant and FPCs (collectively “Advisory Representatives”).

In addition, we have in place internal analysts that assemble, review, and monitor the individual components of our client portfolios, and provide our Advisory Representatives with investment proposals and ongoing reviews for our clients. All trading activity for our clients’ advisory accounts is done by a centralized trading desk, and supervised by the Chief Investment Officer.

Additional details concerning our licensed financial professionals can be found on their respective Brochure Supplements. Please see the “Summary of Material Changes” section of this Brochure for instructions on how to request copies of Brochure Supplements.

OUR WEALTH MANAGEMENT SERVICES

Investment Advisory Services

HKFS provides investment advisory services to individuals, families, trusts & estates, business entities, and charitable organizations, among others. Through execution of the Discretionary Asset Management Agreement (“DAMA”), you appoint us to provide discretionary management of your assets according to your objectives. Client assets are custodied in brokerage accounts opened by HKFS on their behalf at broker-dealers offering custody platforms to independent advisors such as HKFS. Clients also execute separate written agreements with their applicable custodian.

HKFS carefully tailors your portfolio according to your personal needs and other unique circumstances. Our Advisory Representatives first assess your personal situation, financial goals, risk tolerances, liquidity needs, tax impact, and time horizon by way of an information-gathering process that consists of in-person conversations, review of your current portfolio, and approved collaboration with your accountant and other professional advisors, with the goal of finding the asset allocation structure that is suitable to you. Our objective is to optimize your portfolio’s performance and diversification, while at the same time reducing your overall risk exposure and tax liability. We do not guarantee that you’ll achieve your particular objectives; but we do preach that you can benefit

by focusing on the long term and by not chasing short-term profits. Portfolios may have some customization designed specifically for you, including individual stocks, bonds and/or other securities. The balance of stock and bond exposure for each account will depend on your instructions included in your Investment Policy Statement ("IPS"). Portfolio construction can also take into consideration your other investments held outside of HKFS (for example, your family business). You may place restrictions on certain securities or the types of securities that we utilize for your portfolio. Your directions are recorded in your IPS. Each IPS is reviewed and updated with you based on an agreed upon schedule.

Once your IPS has been prepared and your portfolio constructed, HKFS utilizes the discretionary authority you grant to us to manage your assets. HKFS utilizes stock and bond models that have recommended allocations to various styles and categories of securities. HKFS has established the Investment Advisory Committee (the "IAC" or "Committee"), composed of members with substantial industry experience as well as highly technical and professional qualifications. The Committee performs extensive research to choose the investment vehicles to be used within your portfolio. The Committee meets monthly to review current portfolio allocations against global economic and market conditions and outlooks, and may recommend strategic adjustments to style allocations based on changing market conditions. In addition, the Committee monitors and adjusts investment vehicles that represent each style based on style weighting changes or relative performance to peers. Internal analysts then consistently monitor these investments to verify that they continue to meet the performance criteria set forth by the IAC.

To a limited degree, "derivatives," such as structured notes, collateralized mortgage and other debt obligations, as well as callable bonds and certificates of deposit, might also be utilized to meet your needs. HKFS will consider other investments by request and on a case-by-case basis, and may choose not to implement them if we believe they are inconsistent with your IPS, or our overall management style.

Rebalancing helps ensure that the allocation determined to be appropriate to your needs continues to be reflected in your account(s). HKFS will establish the frequency of rebalancing for your portfolio. Also, our Advisory Representatives will meet with you as frequently as needed to review and, where appropriate, adjust your allocation and/or IPS. HKFS will review your progress towards your stated goals, including the accuracy of those goals in light of changes to your own personal circumstances as well as to the current economic environment and market outlook. Adjustments will be made to your IPS and/or asset allocation, if appropriate. See Review of Accounts for more details.

Third-Party Money Managers. Some of our clients may also utilize independent third-party money managers ("MM"), made available through separately managed account ("SMA") programs offered through Charles Schwab & Co. and SEI Investments. In appropriate cases, these MMs offer specialized asset management expertise or services that HKFS utilizes to manage all or a portion of the client's assets. Once selected, these MMs are granted discretionary authority for that portion of client assets placed with them, are subject to a fiduciary duty to choose and manage investments prudently for the client, including the development of an appropriate investment strategy, and must buy and sell securities to meet those goals (subject to restrictions imposed by the client). Clients may contract directly with the MM, or through a three-party agreement.

SMA programs allow certain clients to obtain portfolio management services that typically have higher minimum account sizes if the client had engaged the MM off platform or outside of the program. HKFS has no authority to affect the trading decisions of these MMs once a client decides to participate in these programs, and can only choose whether to engage or terminate them. HKFS may replace MMs on behalf of clients that have given discretionary authority to HKFS. Accounts that have discretionary authority allow HKFS to choose or change any MMs approved for a given platform, without additional approvals from the client. Our internal analysts will evaluate the MMs and investment vehicles to determine whether that MM is suitable for the client, given the appropriate style and allocation. In addition, the IAC performs ongoing due diligence of each individual MM's performance and management, continuously reviews the client's account for adherence to objectives outlined with the MM, and will reallocate assets among MMs, if necessary.

Each MM maintains a separate disclosure document outlining their investment vehicles, which is provided to clients. Clients should carefully review these disclosure documents for important and specific details including, among other things, fees, experience, investment objectives and risk guidelines, and disclosure of the MMs'

potential conflicts of interest. HKFS does not receive compensation directly or indirectly from these MMs. Our fee is in addition to those of the MM.

Retirement Plan Services

Overview. Through our Retirement Plan Services (“RPS”) division, HKFS provides advisory services to employer-sponsored retirement plans, such as 401(k) plans and profit-sharing plans. Advisory services provided may vary by plan client, but typically includes: discretionary investment management, plan design and recordkeeping solutions, and employee support services, among other services. HKFS acts as an ERISA Section 3(38) fiduciary for plan sponsors, and HKFS acts as an ERISA Section 3(21) to the plan participants. We, in turn, acknowledge our status as a fiduciary and assume such fiduciary duties, responsibilities, and obligations.

Plan Administrator Support Services. RPS offers non-fiduciary administrative and recordkeeping services to our plan sponsors that are ERISA Section 3(16) fiduciaries (i.e., administrators) for their respective plans, including:

- Conducting plan sponsor fiduciary obligations overviews
- Discussing and documenting goals
- Designing and implementing the plan
- ERISA compliance testing
- Preparing IRS and DOL filings
- Tracking participant vesting
- Preparing mandated annual changes
- Drafting and updating the plan document
- Allocating employer contributions
- Ongoing general plan consulting advice

In addition, RPS may assist plan sponsors by providing other “ministerial” services, such as mailing of notices, mailing of new hire enrollment kits, and other related tasks.

Investment Consulting. The RPS team will determine the goals and objectives of the retirement plan and recommend appropriate investment strategies to plan sponsors.

Discretionary Investment Management. HKFS acts as the “investment manager” to the plan for the investment options that have been reviewed and approved by the IAC.

Plan Participant Services. Our RPS team provides limited education and enrollment assistance to plan participants, including guidance on plan investment options and asset allocation models.

Additional Services

Commission-Based Securities Products. HKFS offers our clients access to securities, including individual stocks and bonds, mutual funds, variable annuities and alternative investments, held in brokerage accounts with the independent broker-dealer ProEquities, Inc. (member FINRA and SIPC). While HKFS is not a broker-dealer, nor are we controlled by, in control of, or under common control with any registered broker-dealers, several of our Advisory Representatives are registered as securities representatives of ProEquities (“HKFS RRs”). Through our HKFS RRs, you are provided with the option to invest your assets in asset-based advisory accounts with HKFS, commission-based accounts with ProEquities, or both. When our HKFS RRs meet with you to evaluate your goals, their evaluation will include whether your investment objectives might be better met by investing some (or all) of your assets in a ProEquities account. Factors considered might include the anticipated size of your account, your preferred trading strategy (e.g., buy & hold), and the availability of suitable products on the ProEquities platform, among other factors to the client’s circumstances.

ProEquities is also a registered investment adviser. However, neither HKFS nor any of our Advisory Representatives conduct any of our investment advisory business through ProEquities’ RIA. Please see Item 10: Other Financial Industry Activities and Affiliates for a more detailed discussion of the potential conflicts posed by

our relationship with ProEquities. Please also see Item 5: Fees and Compensation for more information on the commissions generated from brokerage accounts.

Fixed Insurance Products. HKFS offers our clients access to fixed insurance products, including life and health insurance, annuities, disability income insurance, and long-term care insurance, through insurance planning as part of their overall risk & wealth management strategy. HKFS has been appointed as a general agency by a variety of insurance carriers, selected for their high-quality products and services. Several of our Advisory Representatives have obtained their insurance licenses and have been appointed as brokers for some of the same insurance carriers.

Fee-Based Planning Only. HKFS offers fee-based financial planning only services for those clients that desire to work with us, but opt not to receive discretionary management of their assets through our investment advisory services. Clients opting for this service will execute a written agreement with us for an agreed upon fee rate. Following roughly the same information-gathering process used for our investment advisory services, our Advisory Representatives will generate a comprehensive financial summary of that client's present financial situation, utilizing a planning software supplied by a third-party vendor, and deliver this financial plan to the client. Once the plan has been delivered, our obligations end and the arrangement terminates - unless the client opts for periodic review of the plan.

Wrap Fee Programs

HKFS does not participate in wrap fee programs.

Assets Under Management

As of December 31, 2017, HKFS has \$3,022,224,241 in assets under management.

Item 5: Fees and Compensation

Investment Advisory Services

HKFS collects a percentage of your assets under management with HKFS for each account at the beginning or end of a calendar quarter ("Management Fee" or "Fee"). The fee schedule attached to the DAMA provides more details on the exact amount you will pay, how we calculate it, and whether you pay it in advance or in arrears. Our maximum fee is illustrated below:

ASSETS UNDER MANAGEMENT	MAXIMUM ANNUAL FEES
\$1,000,000 and Under	2.50%
Above \$1,000,001	Negotiable

We do have account and fee minimums. We do impose a minimum annual fee of \$3,000 for accounts custodied with Schwab. We may negotiate fees on individual accounts - and for households with multiple accounts - that exceed one million dollars (\$1,000,000) in total assets. Most accounts pay less than the maximum fee. Our fees and charges are explained in more detail in your DAMA.

We bill our Management Fee, in arrears, as of the last day of each calendar quarter. We compute our Fee as a percentage of the fair market value of the assets in your account subject to our Fee, as specified in your DAMA, divided by the number of days in that year, and then multiplied by the total number of days in that prior quarter. Any cash flows into and out of your account during the quarter is prorated for billing purposes. We generally manage accounts to have sufficient cash to cover those fees. With our approval, our Fee may be invoiced and paid by check.

If you terminate your advisory relationship with us before the end of a quarterly billing period, your Management Fee will be prorated for only those days that HKFS rendered services to you, including the day we received notice. We will charge for the number of management days in the period, divided by ninety (90), times your Fee rate, divided by four, and then times your balance at the beginning of the quarter. Depending on the notice you provide, we will either debit your account for the remaining days in the period or invoice you directly, if you prefer.

In addition to our Fee, you are also responsible for the internal management fees and charges associated with the mutual funds, exchange-traded funds ("ETFs") and other securities we select for an account. The managers of such assets assess their fees and expenses against fund assets. When possible, we prefer mutual funds with low expense ratios that are no load or load-waived funds. We also prefer low expense ETFs free of trading costs when deemed prudent. Some mutual funds have early redemption charges and short-term trading fees. We avoid incurring these costs when reasonably possible. If you purchase certain ETFs, mutual funds or individual securities, you may also incur transaction costs. You may also incur termination fees and wire fees.

Neither HKFS nor any of our supervised persons receive or accept compensation for the sale of securities or other investment products (including asset-based sales charges or service fees from the sale of mutual funds) inside your managed account. Our revenue from advisory relationships comes from our Management Fees and not from transaction-specific commissions, markups, and other compensation from the sale of investment products. Furthermore, HKFS does not charge commissions or markups on bonds and other securities we may buy for your managed account. HKFS strives to buy these assets at the best possible price by comparing prices from multiple sources. When possible, we will aggregate purchases to achieve better pricing. Please see Item 12: Brokerage Practices for more detailed information concerning custodial trading practices.

Third Party Money Managers. There are two different arrangements for custodial fees at Schwab: Asset-Based Pricing ("ABP") and Transaction-Based Pricing ("TBP"). The ABP method assesses fees based on the value of the portfolio, rather than on individual transactions, and TBP charges a fee per each trade placed in the account.

More information concerning custodial fees for third party money manager arrangements can be located in the MM's investment management agreement.

Retirement Plan Services

The maximum fee schedule for Employer-Sponsored Retirement Plans is as follows:

Asset Management	Negotiable up to 1.5% of plan assets.
Custodial and Administrative Fees	Customized and separately disclosed per plan.

Fees for custodial trading services are based on an agreement between HKFS and Fidelity Brokerage Services, LLC. ("FBS") and represent a pass-through of the fees assessed by FBS. Services include registration and custody of all plan securities, access to FBS's mutual fund platform, an automated trading link that integrates with the HKFS recordkeeping system, and other miscellaneous services. These fees are paid from the plan assets and charged pro rata to the plan each quarter. We separately disclose to plan sponsors and participants various plan costs and fees - as required by the Department of Labor.

Fees are collected, in advance, unless otherwise indicated in your RPS investment management agreement. If you terminate your advisory relationship with us before the end of a quarterly billing period, your Management Fee will be prorated for only those days that HKFS rendered services to you, including the day we receive notice. We will charge for the number of management days in the period, divided by ninety (90), times your fee rate, divided by four, times your balance at the beginning of the quarter. You will receive a credit to your account for the remaining days in the period or a check, if you prefer, depending on the notice you provide. We will send the check to the address used on your account statement, unless you timely instruct us otherwise.

Neither HKFS nor any of our supervised persons receive or accept compensation for the sale of securities or other investment products (including asset-based sales charges or service fees from the sale of mutual funds) inside your managed account. For example, mutual fund companies utilizing FBS's fund platform may provide special payments for services that benefit those companies, commonly referred to as "revenue sharing". The amount paid by a fund company is reflected in that fund's expense ratio, and may include sub-transfer agent fees, 12b-1 fees, and fund administration fees, among others. Through our agreement with FBS, much of the revenue sharing paid to FBS is passed through to HKFS. HKFS deposits these payments to a separate ERISA recapture account for each retirement plan. It is HKFS's policy that all such payments be used to the ultimate benefit of the plan participants; specifically, payments are applied to offset quarterly charges for services we provide. See appendix C of your plan's service agreement for more details.

Other Fees and Compensation

Commission Earned from the Sale of Investment or Insurance Products. Advisory Representatives may sell securities products held in a separate brokerage account with ProEquities and/or insurance available through our insurance carriers. Such transactions will generate commissions (and possible ongoing trails), which are paid by the client and earned by our HKFS RRs. Selling securities or insurance products for a commission presents a conflict of interest, giving us and our Advisory Representatives an incentive to recommend products based on the compensation we receive, rather than on your needs. We address any such conflict by fully disclosing and discussing how such products may help you achieve your objectives, as well as possible alternatives, benefits, and costs. We do not exercise discretion on such transactions. Advisory Representatives that are salaried employees of the firm are required to assign all commissions generated to HKFS. Any commissions earned by non-employee Advisory Representatives relating to such transactions will be disclosed to our clients before and during the transaction using formal disclosure forms. Clients will not be charged an additional asset-based management fee for commissions we receive for the transactions. Concerning ProEquities accounts, all transactions are reviewed for suitability by a registered supervisory principal of ProEquities that is also an employee of HKFS. Concerning fixed insurance products, HKFS is subject to state regulatory requirements concerning sales practices and suitability.

Fee-Based Planning. Fees for financial planning only arrangements are negotiable and might depend upon the level and scope of the services required as well as the Advisory Representative providing the services. Fees will

typically range from \$1,000-\$5,000 on a fixed basis, or \$150-\$300 per hour. Clients are typically invoiced at the end of the arrangement, although we may request an initial deposit. Clients pay fees directly rather than through a debit of accounts. You also have the option to purchase products that we recommend through other brokers or agents not affiliated with HKFS. If you do, they may charge the same or different amount for fees than HKFS.

Item 6: Performance-Based Fees and Side-By-Side Management

HKFS does not - nor do any of our supervised persons - accept performance-based fees. In addition, HKFS does not engage in side-by-side management.

Item 7: Types of Clients

We provide wealth management services to individuals, pension & profit sharing plans (and their participants), trusts, estates, foundations & endowments, charitable organizations, and corporate entities.

For investment advisory services, we generally do not accept assets in advisory accounts less than \$50,000 because of practical considerations in managing small accounts. For example, certain mutual funds impose a minimum account balance, which limits our ability to properly allocate or rebalance an account across multiple asset classes. We use SEI Trust Company as the custodian for accounts under \$200,000, with a minimum annual fee of \$750. We use Schwab as the custodian for accounts of \$200,000 or more, with a minimum annual fee of \$3,000.

We may waive single account minimums for households and for other clients holding multiple accounts with us of sufficient aggregate size if it makes business sense for us. We also have additional custodians available.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

ANALYSIS AND STRATEGIES

Investing in securities inherently involves risk of loss, which you should be prepared to bear. To deal with that risk, we employ three fundamental strategies: (1) allocating assets to meet long-term goals, (2) using broad diversification, (3) holding allocations through market cycles while strategically adjusting style weights, and (4) rebalancing portfolios, when necessary, to ensure that portfolios remain within the selected allocation range.

Asset Allocation

Studies have shown that asset allocation determines most of your return. Historically, stocks have earned a greater return than bonds, albeit with greater risk. Risk in this sense means price volatility. Therefore, the higher your allocation to stocks, the greater you can expect your long-term return to be, and the greater you can expect your risk to be.

HKFS financial professionals carefully analyze your needs and apply these findings and results to the management of your portfolio. These findings and the allocation decision will be documented in your IPS.

Diversification

Diversification is a major component of Modern Portfolio Theory ("MPT"). MPT is a theory that HKFS considers in our investment management. MPT attempts to maximize portfolio return for a given amount of risk by carefully choosing the proportion of various assets. We believe that it is important to diversify your stock and bond portfolios into different investment styles or segments. For example, a stock portfolio can be diversified into large or small capitalization stocks, growth or value stocks, and domestic or international stocks, while bonds can be diversified into long or short maturities or higher or lower quality bonds. By diversifying into a collection of investment assets that have diverse correlations to each other, we believe we can lower the overall risk of the entire account.

Holding Through Market Cycles

We do not believe that you will benefit over the long term if we move you in and out of markets based on market movements (that is, market timing). We believe attempting to sell out of and buy back into any market is riskier than maintaining an allocation strategy through the cycles. Frequent and excessive trading may increase brokerage and other transaction costs as well as tax liability, while at the same time reducing performance. However, we do believe that value can be added by strategically adjusting the weightings to different asset sectors over various market and economic cycles.

Our Investment Advisory Committee considers information gathered independently as a company, obtained from outside research, and that members obtain on their own. The IAC advises the Chief Investment Officer (CIO) on issues relating to adjusting allocations to different asset segments based on the outlook for the economy and markets. The IAC provides guidance in establishing policies and procedures to ensure proper diversification is achieved in your accounts. The IAC also provides account oversight. See Item 13: Review of Accounts.

Rebalancing

Because the value of different asset classes held in your portfolio can rise or fall over time, resulting in you falling outside the asset allocation range defined in you IPS, our financial professionals periodically review client accounts to determine if rebalancing to realign your account back to your defined allocation range is advisable.

OTHER METHODS OF ANALYSIS

We use several different investment vehicles in managing your portfolios. We analyze mutual funds and ETFs for their management, performance, and expenses. Manager tenure is important to consider as is fund performance on both a nominal and comparative basis. We compare performance to similar funds, an asset or market sector,

and the markets as a whole. We monitor for changes and trends. We also are careful to keep trading costs and fund expenses reasonable.

When using individual securities, we are careful to include best-bid buying of securities, and to employ special orders when buying or selling securities or ETFs on an exchange. For example, limit orders may help secure a security at a marginally lower cost, or secure a minimum price on sale. We may use research from multiple companies when making our decisions on individual investments and funds, such as Bloomberg, Credit Suisse, Morningstar, Charles Schwab & Co. and Standard & Poor's, among others.

We also consider the economic and market climate when buying or selling investments. We may also consider the length of time securities are held in your taxable account to reduce the impact of transactions on your income tax. To improve tax efficiency of your account, we may time purchases and sales to match gains with losses, avoid buying capital gains, defer gains to another year, and to avoid wash sales.

RISK OF LOSS

As a firm that manages for the longer term, without frequent trading of securities, there is a material risk that we may hold stocks and bonds in your accounts during a prolonged period of generally suppressed security prices. By allocating assets among a wide variety of asset class, we may mitigate the risks of this strategy. By not attempting to time in and out of market cycles, we believe we are reducing the risk of missing a market turn.

There is a material risk that how we allocate assets among various areas and sectors of markets for any period may produce results below that of the securities markets as a whole. Diversification does not eliminate the potential for loss.

We primarily recommend actively-managed mutual funds and passively-managed ETFs. There is a material risk that we may choose funds that fail to perform as well as their peers, or that we allocate too much or too little to certain funds or market sectors. The types of risks among various types of funds differ substantially. We diversify to reduce risk of owning specific companies or styles.

Item 9: Disciplinary Information

Neither HKFS nor any of our related persons have any legal or disciplinary events to disclose that we believe are 'material' to you.

You can always view the CRD registration records for HKFS or any of our Advisory Representatives through the SEC's Investment Adviser Public Disclosure (IAPD) website at www.adviserinfo.sec.gov or through FINRA's BrokerCheck database online at www.finra.org/brokercheck if the Advisory Representative is also registered with ProEquities. Our IARD/CRD number is 106237 and the CRD numbers for Advisory Representatives are listed alongside their biographical information in their respective Brochure Supplement document.

Item 10: Other Financial Industry Activities and Affiliations

COMMON CONTROL AFFILIATES: HONKAMP KRUEGER & CO., P.C.

HKFS is an affiliate of the certified public accounting firm Honkamp Krueger and Co., P.C. (“Honkamp”), located primarily in Dubuque, Iowa. Partners of Honkamp collectively own a controlling interest in HKFS, and therefore receive a share of the profits of HKFS. In addition, some Honkamp partners and managers are also Advisory Representatives and, through a fee-sharing arrangement with HKFS, receive a share of Fees generated from their CPA clients that have obtained our investment advisory services. Honkamp also provides accounting and bookkeeping services to HKFS.

As an affiliate of Honkamp, HKFS has a conflict of interest because Honkamp and HKFS may refer the services of each other for our firm’s collective financial benefit. To address such conflicts, HKFS has identified all Honkamp partners that are HKFS stakeholders and those Honkamp partners and managers that are Advisory Representatives as “supervised persons”, meaning they are subject to our Code of Ethics. We monitor and enforce our Code. In addition, Honkamp partners and managers that are licensed CPAs are also subject to the AICPA code of professional conduct, which requires that all such CPAs uphold a high standard of care when providing other professional services (including investment advisory services) to their CPA clients.

COMMON CONTROL AFFILIATES: HK PAYROLL SERVICES, INC.

HKFS is an affiliate with HK Payroll Services, Inc. (HKP), which is located primarily in Dubuque, Iowa. Several partners of HKP own a stake in HKFS, and therefore receive a share of the profits of HKFS. A few HKP partners are also Advisory Representatives and, through a fee-sharing arrangement with HKFS, receive a share of Fees generated from their HKP clients that have obtained our investment advisory services. HKP also provides payroll services to HKFS.

As an affiliate of HKP, HKFS has a conflict of interest because HKP and HKFS may refer the services of each other for our firm’s collective financial benefit. To address such conflicts, HKFS has identified any HKP partner that is a HKFS stakeholder and/or Advisory Representative as “supervised persons”, meaning they are subject to our Code of Ethics. We monitor and enforce our Code.

NON-AFFILIATE FINANCIAL SERVICES RELATIONSHIPS: REGISTERED REPRESENTATIVES OF PROEQUITIES

Several of our advisory representatives are registered representatives of the broker-dealer ProEquities (“HKFS RRs”). ProEquities is a registered broker-dealer and member FINRA and SIPC, and is located in Birmingham, Alabama. HKFS and ProEquities are separate legal entities and are wholly independent of each other. Our relationship with ProEquities is material to our clients. ProEquities provides limited-scope supervision of our HKFS RRs’ advisory activities to the extent that ProEquities considers such activities to be outside the ordinary business of its broker-dealer; in exchange, we pay ProEquities a supervision fee. While ProEquities’ brokerage operation is not material to the operation of our advisory business, ProEquities expects our HKFS RRs to sell products through ProEquities to you to generate commissions. Generating and receiving such commissions could create an incentive on the part of the HKFS RRs to sell products not in the best interests of the client. This in turn creates a conflict of interest between the HKFS RRs and our clients. Please see Item 5: Fees and Compensation, where we discuss our brokerage fee disclosure policy.

To address this, HKFS RRs must adhere to FINRA rules regarding client product suitability. Further, all HKFS employees that are HKFS RRs are required to assign all commissions generated under their ProEquities rep number to HKFS; HKFS employees are paid an annual salary as well as periodic bonuses based on a variety of factors. All HKFS RRs that are CPAs are required by their state accountancy board to provide each client with a document for each brokerage transaction that discloses the commissions and other related fees earned from the transaction. We also address this conflict by adopting, monitoring, and enforcing our Code of Ethics. (We encourage you to review our Code of Ethics).

NON-AFFILIATE FINANCIAL SERVICES RELATIONSHIPS: GENERAL AGENCY FOR INSURANCE CARRIERS

HKFS also offers insurance products to our advisory clients as a Managing General Agency/Agent for insurance carriers. We are licensed to do insurance business in most states. Some of our Advisory Representatives may also be licensed to sell insurance. We and some of our Advisory Representatives are appointed as brokers with various insurance carriers and may benefit financially, directly or indirectly, from a transaction in insurance. Many of the cases we handle are significant in size and complexity, and contribute to our profits. There is a material conflict with you when we or any of our Advisory Representatives benefit from an insurance commission. We address this conflict in our Code of Ethics, particularly in the section entitled 'Sales Practices'. Our operating standard requires that we seek the product suitable for you and your financial situation. We conduct comparative quote and cost analysis as a matter of practice when placing a policy for you.

NON-AFFILIATE VENDOR RELATIONSHIPS: CUSTODIANS

We have a material relationship with Schwab and SEI Trust Company as the broker-dealer/custodian for our investment advisory services. We have a similar relationship with Fidelity Investments for our retirement plan services. See Item 12: Brokerage Practices for more details concerning our relationship with Schwab.

NON-AFFILIATE VENDOR RELATIONSHIPS: SUB-ADVISORS

We have sub-management agreements with certain sub-advisors to help us monitor individual stocks and bonds. If you own such securities, you must agree to this monitoring service by signing a limited power of attorney allowing these firms to view your positions. These sub-advisors may also present securities for purchase or sale in your accounts, work for with which the sub-advisor may receive compensation. HKFS does not participate in or benefit from such fees, and conducts due diligence reviews to ensure stock and bond prices remain competitive with those that you could obtain from other sources. We exercise independent judgment that such securities meet your needs.

CONCLUSION

We have no relationships or arrangements that might be material to our advisory business or material to you in evaluating us with the following types of organizations or persons:

- Any investment company or other pooled investment vehicle - beyond employing such products in a client portfolio.
- Any other investment advisor or financial planner.
- Any futures commission merchant, commodity pool operator, or commodity trading advisor.
- Any banking or thrift institution.
- Any lawyer or law firm.
- Any real estate broker or dealer.
- Any sponsor or syndicator of limited partnerships.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

CODE OF ETHICS

Pursuant to SEC Rule 204A-1, HKFS has adopted a Code of Ethics (“Code”) promoting the fiduciary duty that both HKFS and our supervised persons owe to you. The Code lays out our standards of business conduct, and establishes policies and procedures to ensure our compliance with federal and state laws as well as to reduce or minimize potential conflicts. Our Code encourages us and our related persons to put your interests first, to maintain the confidentiality of your personal and sensitive information, and to prevent abuses of our position of trust at your expense. We provide our Code and related training to all employees as a part of new hire orientation, and then annually thereafter. Our supervised persons are required to attest that they have read and understand our Code, as well as to retain a copy to reference. A copy of our Code is available to you upon request. It is also posted on our website at www.hkfs.com.

PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

HKFS generally does not buy or sell any securities for your accounts in which we have a material financial interest. That would be a direct conflict of interest. HKFS generally does not invest your assets in securities designated by the SEC as “reportable securities” (for example, exchange-listed stocks), although you may direct us to buy and sell such securities in your IPS.

Our supervised persons may have an interest in client transactions insofar as they may personally invest in the same securities recommended to you. These transactions involve a conflict of interest as HKFS or our supervised persons may benefit from an increase in price from subsequent purchases by you. To address this conflict, we have policies placing restrictions on some of the personal trading activity of our supervised persons, as well as procedures requiring supervised persons to report their personal holdings annually and their personal securities transactions every quarter, among other requirements. Our Chief Compliance Officer monitors the personal securities activity of our supervised persons, especially those who recommend or place trades for your accounts.

Item 12: Brokerage Practices

THE CUSTODIANS AND BROKERS THAT HKFS USES

HKFS does not maintain custody of your assets that we manage. Your assets must be maintained in an account at a “qualified custodian,” generally a broker-dealer or bank. We primarily use Schwab, SEI and TD Ameritrade for our investment advisory services, and Fidelity for our retirement plan services; we have less significant relationships with other providers. We are independently owned and operated, and are not affiliated with any qualified custodian. The qualified custodian will hold your assets in a brokerage account, and buy and sell securities when instructed by either us or you.

HOW HKFS SELECTS BROKERS/CUSTODIANS TO USE

We seek to use custodians who will hold your assets and execute transactions on terms that are overall most advantageous when compared to other available providers and their services. We consider a wide range of factors, among others, including the following:

- combination of transaction execution services along with asset custody services (generally without a separate fee for custody);
- capability to execute, clear, and settle trades (buy and sell securities for your account);
- capabilities to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.);
- breadth of investment products made available (stocks, bonds, mutual funds, ETFs, etc.);
- availability of investment research and tools that assist us in making investment decisions
- quality of services;
- competitiveness of the price of those services (commission rates, other fees, etc.) and willingness to negotiate them;
- reputation, financial strength and stability of the provider;
- their prior service to us and our other clients;
- availability of other products and services that benefit us, as discussed below.

YOUR CUSTODY AND BROKERAGE COSTS

For our clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees. Schwab is also compensated by earning interest on the uninvested cash in your account in Schwab's Cash Features Program. In addition to commissions, Schwab charges you a flat dollar amount as a “prime broker” or “trade away” fee for each trade that we have executed by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into your Schwab account. These fees are in addition to the commissions or other compensation you pay the executing broker-dealer. Because of this, we have Schwab execute most trades for your account to minimize your trading costs. We have determined that having Schwab execute most trades is consistent with our duty to seek “best execution” of your trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see “HOW HKFS SELECTS BROKERS/CUSTODIANS”).

Schwab is our preferred broker/custodian because of its competitive commission schedule, effective trade execution platform, and ability to aggregate client trades, which may benefit you. Schwab offers a wide variety of products and services at competitive institutional pricing, the benefits of which we can pass on to you. In that case, we execute transactions through Schwab. We do not receive compensation from Schwab for directed trades. That would create a conflict of interest with you. Not all advisors require you to direct brokerage, though some do. By directing brokerage, an advisor may be unable to achieve the most favorable execution of your transactions, and this may cost you more money. We have adopted policies and procedures to obtain the most favorable execution as often as practicable.

Concerning “best execution”, Schwab states on its website:

“Schwab Advisor Services is committed to providing best execution for your trades. Information regarding the routing destination and time of execution of your orders for up to a six-month period is available upon request.

In arranging for the execution of equities and listed options orders, Schwab Advisor Services seeks out industry leading execution services and access to the best performing markets. In this regard, Schwab Advisor Services has contracted with UBS Securities LLC and its affiliates (“UBS”) for equity and options order handling and execution services, including access to UBS’s state-of-the-art, algorithmic order routing capabilities. UBS manages the execution of most types of orders for which customers have not provided specific instructions (non-directed orders), including through the use of intelligent order routing technology for identifying the best available market. UBS executes Schwab Advisor Services orders on all major market centers, including exchanges, ECNs (electronic trading networks) and dealer markets, and may also execute orders as principal. UBS also provides execution services for most types of directed orders.

UBS routing and execution services are subject to Schwab Advisor Services’ execution quality standards for achieving best execution. In certain circumstances, Schwab Advisor Services itself may route orders directly to a market for execution. Schwab Advisor Services considers a number of factors in evaluating execution quality, including execution price and opportunities for price improvement, market depth and order size, the trading characteristics of the security, speed and accuracy of the execution, the availability of efficient and reliable order handling systems, service levels, and the cost of executing orders at a particular market or firm. Schwab Advisor Services regularly monitors the execution quality provided by UBS and the various markets to which UBS and Schwab Advisor Services may route orders, to ensure orders are routed to markets that have provided high-quality executions over time.”

PRODUCTS AND SERVICES AVAILABLE TO HKFS FROM SCHWAB

Schwab serves independent investment advisory firms like HKFS. Schwab provide us and our clients with access to its institutional brokerage - trading, custody, reporting, and related services - many of which are not typically available to Schwab Retail customers. Schwab also makes available various support services. Some of those services help HKFS manage or administer our clients’ accounts while others help us manage and grow our business. Here is a more detailed description of Schwab’s support services:

Services that Benefit You. Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab’s services described in this paragraph generally benefit you and your account.

Services that May Not Directly Benefit You. Schwab also makes available to HKFS other products and services that benefit us, but may not directly benefit you or your accounts. These products and services assist us in managing and administering your accounts. They include investment research, both Schwab’s own and that of third parties. HKFS may use this research to service all or some substantial number of our clients’ accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- provide access to client account data (such as duplicate trade confirmations and account statements);
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- provide pricing and other market data;
- facilitate payment of our fees from our clients’ accounts; and
- assist with back-office functions, recordkeeping and client reporting.

Services that Generally Benefit Only HKFS. Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- educational conferences and events;
- consulting on technology, compliance, legal, and business needs;

- access to employee benefits providers, human capital consultants, and insurance providers; and
- Marketing consulting and support.

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Schwab may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. Schwab may also provide us with other benefits such as occasional business entertainment of our personnel.

EXAMPLES OF SCHWAB PRODUCTS AND SERVICES PROVIDED TO HKFS

In exchange for agreeing to move our client money market balances over to cash sweep accounts of its banking division back in 2016, HKFS receives financial support from Schwab to cover any of our technology and marketing invoices through 2018. This support helps us to manage and further develop our advisory business, which helps us enhance the services we provide to you. HKFS hold an annual conference for our independent CPAs registered with HKFS as Advisory Representatives to provide them with training on our services and programs. Schwab (and other unaffiliated third parties) might provide HKFS with financial support for this conference in the form of cash payments, logo-embroidered merchandise or guest speakers, among others; cash payments have ranged from \$250-\$10,000. And HKFS recently completed an onsite consultation with a Schwab professional to help us strengthen our cybersecurity program.

OUR INTEREST IN SCHWAB'S SERVICES

The availability of these services from Schwab benefits us because we do not have to produce or purchase them. We don't have to pay for Schwab's services. These services are not contingent upon us committing any specific amount of business to Schwab in trading commissions or assets in custody. This creates an incentive to recommend that you maintain your account with Schwab, based on our interest in receiving Schwab's services that benefit our business rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Schwab as custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab's services (see "HOW HKFS SELECTS BROKERS/CUSTODIANS") and not Schwab's services that benefit only us.

SOFT DOLLAR ARRANGEMENTS

HKFS does not engage in any soft-dollar arrangements. Neither HKFS nor our related persons receive products or services acquired with your brokerage commissions (or markups or markdowns) from transactions on behalf of you. We do not direct your transactions to a broker-dealer in return for soft-dollar benefits. If our policy changes, we must disclose this as a material change in the way we do business.

HKFS does receive investment-related information, such as proprietary and third-party research, from the mutual fund companies we utilize, and from the money managers for our SMA programs, such as Nuveen and Goldman Sachs, among others. We also receive this type of information from Schwab and SEI. This material is not provided to us based on your brokerage commissions.

CLIENT REFERRAL ARRANGEMENTS

HKFS does not select or recommend broker-dealers/custodians in exchange for client referrals from a broker-dealer or third party.

DIRECTED BROKERAGE ARRANGEMENTS

HKFS generally does not accept client guidance for the direction of brokerage.

BROKERAGE/TRADING PRACTICES

HKFS generally aggregates purchases and sales of securities in your affected accounts whenever possible. We do this to secure any potential price benefit equally for you and our other clients. You may be given an opportunity to elect out of such trades when you consider it in your best interest. Transaction costs are generally the same

whether or not we aggregate trades. We aggregate purchases and sales of mutual funds for affected accounts when we choose or replace a mutual fund to represent an asset segment in our portfolio, change our asset class allocation, or when we re-balance accounts. All affected accounts receive the same price. If an aggregated purchase or sale order for such a security executes in pieces at different prices, we apply the average price to each account. A potential cost to you is that a non-aggregated order might provide a better price. It would be a potential conflict of interest to execute individual trades or allocate the results of aggregated trades to specific accounts as we might prefer one client over another.

Item 13: Review of Accounts

HKFS reviews your account(s) periodically, and at least annually, to ensure we are managing your assets according to your current financial needs and according to the directions laid out in your IPS. We review model accounts, re-balancing them as instructed, once, twice, or four times annually. Our IAC, CIO or analysts, in some cases, compares all our non-modeled accounts annually to an IAC-selected list of criteria. A group of accounts are reviewed each month, and a report of the results is sent to the IAC and CIO. Any discrepancies are reported to your Advisory Representative. Discrepancies are tracked until corrected, or your direction to maintain the discrepancy is recorded. Additionally, your Advisory Representative consults with you regarding each account upon a mutually agreed upon schedule. Your Advisory Representative may discuss your financial goals with you. We may also provide a client review as a way to formally structure your review process.

In addition to periodic reviews, we may review accounts annually to help you manage the impact of tax liability. We may also do ad hoc reviews of accounts that own a particular security when deemed appropriate. Reasons may, among others, include: unusually positive or negative news or price changes in a security; a merger or other corporate event; or a regulatory or civil action.

You receive reports monthly or quarterly from both us and your qualified custodian. Our reports may include the purchase date, cost, market price, realized gain or loss, unrealized gain or loss of your securities. We also report the change in value over time, including your additions and withdrawals. Please immediately report any difference between our report and that of your qualified custodian. We usually provide a written newsletter from the CIO with your HKFS statement. We also produce periodic client webcasts. These newsletters and webcasts are also posted to our website, www.hkfs.com.

Item 14: Client Referrals and Other Compensation

The only compensation that HKFS receives for the wealth management services we provide is our Management Fee. HKFS does not receive any economic benefit from anyone who provides investment advice or other advisory services to you.

HKFS compensates other professionals (for example, CPAs, attorneys) to refer their clients to HKFS for our wealth management services ("Solicitors"). The use of referral compensation may constitute a conflict of interest. For referrals that engage HKFS for advisory services, HKFS will compensate the Solicitors a portion of the ongoing fee we collect from clients in accordance with a written agreement between HKFS and the Solicitor. HKFS will only compensate Solicitors that are licensed as investment advisor representatives, especially in states that require IAR registration and allow that practice. In addition, HKFS follows SEC and state regulator rules concerning solicitor arrangements.

Item 15: Custody

Under government regulations, HKFS is deemed to have constructive custody through certain authorizations we maintain over client assets. For example, most clients have authorized us to instruct Schwab to debit our Management Fee directly from their accounts. And some clients have also granted us authority to move their money to another person's account.

As a result, we have implemented certain controls to provide further protections for you. In accordance with Rule 206(4)-2, unaffiliated qualified custodians, such as Schwab, maintain actual custody of your assets. Your qualified custodian is required to send account statements to you at least quarterly to your postal mailing address (for paper statements) or the electronic mail address (if you opt for electronic delivery).

We urge you to promptly and carefully review the account statements from your qualified custodian, and compare them with the monthly portfolio reports you receive from us. If you find or suspect any discrepancies, please report them to our Chief Compliance Officer, who can be reached toll-free at 800-791-8994 or at compliance@hkfs.com.

Item 16: Investment Discretion

We accept discretionary authority to manage investment accounts on your behalf. Before we assume such authority, you must execute a DAMA defining our discretionary authority, as well as complete an IPS detailing instructions for how we are to manage your accounts. You may prohibit any asset or market segment, and may limit the kinds of securities we use in managing you toward your objectives. Clients will also execute a trading authorization form with their broker-dealer/custodian, which defines the discretionary authority clients are giving us over their accounts. When you grant HKFS discretion, we buy and sell securities and change market segment weightings within your IPS guidelines.

We may also manage some assets on a non-discretionary basis. However, we currently do not provide any clients with non-discretionary asset management based on a written agreement.

Item 17: Voting Client Securities

In line with the fiduciary duty we owe to you and in accordance with SEC Rule 206(4)-6, HKFS maintains policies and procedures for voting security proxies.

You may grant us authority to vote securities in your accounts or else withhold that right for yourself. You may also elect to receive proxies or other solicitations directly. You may revoke that authority at any time. Depending on circumstances, you may receive your proxies or other solicitations directly from your qualified custodian or a transfer agent.

Our IAC monitors the proxy voting function. Our CIO supervises proxy voting by HKFS. As proxy materials are received, they are collected and reviewed for conflict of interest. When no conflict of interest is apparent, the CIO will direct votes to be cast according to the recommendations of the management of the company who issued the securities. If the CIO determines that an actual or potential conflict of interest exists, our CIO will direct that the vote be cast as "abstain". Abstentions are logged and reported to the IAC. Proxy statements and copies of voting cards are filed and maintained for at least 5 years. Our CIO and support staff assumes responsibility for filling your requests for information regarding proxy votes and maintaining records of such requests. Beginning third quarter of 2016, HKFS has engaged the proxy tabulation service, Broadridge's ProxyEdge, to vote and maintain records of all proxies.

For information on how a specific proxy was voted, you may contact our CIO or Chief Executive Officer. To request a copy of our policies and procedures document, contact your Advisory Representative.

You may also direct a request in writing to our corporate office at 3390 Asbury Road, Dubuque, IA 52002, or by phone at 800-791-8994 or 563-582-2855.

In addition, HKFS has also contracted with Broadridge as a service provider to file Class Actions "Proof of Claim" forms. Occasionally, securities held in the accounts of clients will be the subject of class action lawsuits. We have retained the services of Broadridge to provide a comprehensive review of our clients' possible claims to a settlement throughout the class action lawsuit process. Broadridge actively seeks out any open and eligible class action lawsuits. Additionally, Broadridge files, monitors and expedites the distribution of settlement proceeds in compliance with SEC guidelines on behalf of our clients.

For more information, or if you would like to review any of these documents, you may contact our CIO or Chief Compliance Officer.

Item 18: Financial Information

HKFS does not require or solicit prepayment of more than \$1,200 in fees per client six months or more in advance, and has not been the subject of a bankruptcy petition during the last 10 years.
